

Neurologic Music Therapy

brought to you by:

Music and Health Science Program

These sessions use music-based movement and singing interventions that are endorsed by the World Federation for Neurologic Rehabilitation, to help you reduce tension and improve your quality of life in a fun and supportive environment.

Who: This group is designed for persons with dystonia who seek treatment strategies to reduce chronic pain and tension.

When: Thursday evenings, 6:00PM-7:00PM EST

Where: <https://utoronto.zoom.us/j/88290654437>

Meeting-ID: 882 9065 4437
password: music22

What to wear: Comfortable clothing and a water bottle

This group is run by PhD and MA students in the Music and Health Science programs at the University of Toronto along with Dr. Corene Thaut, Neurologic Music Therapist and an assistant professor in the Faculty of Music.
