# ANTEROCOLLIS: DIVING DEEP TO THE PREVERTEBRAL FASCIA

TUESDAY SEPTEMBER 16, 2025

6:00 PM - 7:30 PM (ET)

**SUMMARY:** Various approaches to treating anterocollis, including strategies involving the longus colli muscle by analyzing video case studies and challenging patient case study.

### VENUE

Virtual Webinar - link to be shared to registered attendees ahead of the event.

### LEARNING OBJECTIVES

- Case presentation and discussion around managing patients with anterocollis and anterocaput dystonia,
- Review of anterior cervical anatomy for the neurotoxin injector, including deep cervical muscle considerations,
- Demonstration of ultrasound guidance to support anterior cervical muscle targeting to optimize treatment outcomes.

### AUDIENCE

Movement disorder neurologists in Canada.
